Learn about available resources to help you become independently mobile

Employment

Review options, resources and guidelines for entering the world of work

Housing

Plan for future living arrangements and learn how to access housing

Legal

Know your rights and who to call when you need assistance

Understanding My Disability

Learn more about disabilities

OUR HISTORY

June 26, 2014 -The Governor's Advisory Council for Exceptional Citizens (GACEC), with support from the Delaware General Assembly announces the launch of the Delaware Disability Hub, a website resource for youth and young adults in transition.

DeIDHub

The Delaware Disability Hub (DeIDHub) provides a rich assortment of valuable resources to support adolescents and young adults with disabilities in their transitions to becoming fully engaged citizens in their communities.

TRANSITION

Transition is a lifelong process progressing from one important stage of development to another. The move from adolescence to adulthood can be very challenging, especially for individuals with disabilities. Starting at age 14, there are a wide range of questions and resources to discuss before leaving school. The DeIDHub is here to help with the process

OUR GOAL

The goal of the DeIDHub website is to provide a depository of information to assist people with their questions as they transition from high school to post-secondary education, employment, and community living. The DeIDHub organizes all the relevant information in one site, with staff monitoring and updating it so the information remains current and accurate.

Who should use the
DeIDHub?

The DeIDHub provides valuable resources to support adolescents and young adults with disabilities, along with their families, teachers, caseworkers, social workers, transition coordinators, and other professionals
