

ADA Paratransit Services Application

There are two types of public transportation available throughout the State of Delaware:

Fixed Route Service (regular city buses) provides service at designated bus stops along specific routes on set schedules. All buses now have features to make riding easier for people with disabilities, including wheelchair lifts, kneeling features, low floor buses, and voice announcements.

ADA Paratransit Service (door-to-door) shared-ride public transportation service for people whose disability prevents them from using Fixed Route Service (regular city buses). You must call in advance to make a reservation to travel.

If your disability or environmental barriers, prevent you from using Fixed Route service (regular city buses), you may be eligible for Paratransit Service (door-to-door) some or all of the time. Your ability to ride Fixed Route buses (regular city buses) will be evaluated through the use of this application, an In Person Interview, and in some cases a functional assessment. A determination will be made within 21 days of your in person interview or presumptive eligibility will be granted. When you are contacted for your in person interview, it is to your benefit to schedule as soon as possible. Your application will not be processed without this step.

IMPORTANT: Medical condition or eligibility for other disability programs do not necessarily qualify you to use Paratransit Service (door to door). Not having access to fixed route bus service is not a qualifier.

What is the American with Disabilities Act (ADA)?

The Americans with Disabilities Act (ADA) is a civil rights law. The intent of the ADA is to remove barriers that have prevented people with disabilities from fully participating in life. Under the ADA, Fixed Route service (regular city buses) is to be the primary means of public transportation for everyone, including people with disabilities.

Travel Training

DART offers free one-on-one or group training to teach people with disabilities how to ride Fixed Route buses. If interested, you may call one of our travel trainers for more information:

Dear Health Care Professional:

In order to complete this application on behalf of the applicant, you must be either a certified or license professional.

The applicant is asking you to review the information of this application and to complete and sign Part B of this form certifying that they have a disability that prevents them from using fixed route bus service (regular city buses). This information will be used to help determine whether or not the applicant needs to use paratransit (door-to-door) service or is able to use fixed route service for all or some of their travels.

Under the Americans with Disabilities Act (ADA), if a person has the functional and cognitive ability to use DART Fixed Route buses, that person is not eligible for paratransit services. Disability alone, distance to and from a bus stop, or the availability of fixed route bus service, is not by itself, a qualifier for paratransit services.

All DART Fixed Route buses are lift equipped for use by individuals using wheelchairs or by individuals who are not able to use steps. Additionally, DART has kneeling buses, which lowers the bus to the ground, making the first step from the curb easier to make. DART also offers travel training to assist persons with disabilities to use the fixed route bus service to enhance their independence.

If you have any questions while completing Part B, please contact us at 1-800-652-3278, Option 3.

Please note: If you do not have Part A, you will need to return Part B to the applicant. We must receive both part A and Part B as one submission.
